I want to hear all voices forever.

After batshit-crazy Arabs took us
to their funeral pyre at the Twin

 Towers, we cried for blood.
 Some peace protesters, rising,

     got promptly clubbed.
     Hawks and Doves
     feuded in the cabinet.

Freedom, all extolled, of course,
     but it's baloney un-

  less you hear everything
       continuously.
